

The Agency adopted the Programme for Ensuring Media Access for Persons with Disabilities

☒ Skopje, 18.06.2015 – At its 21st Session held on 18.06.2015, the Agency for Audio and Audiovisual Media Services adopted the Programme for Ensuring Media Access for Persons with Disabilities. This Programme includes activities and measures that the AAVMU should take up in the course of 2016, 2017 and 2018, in order to promote a better access for the people with visual and hearing impairments to the programmes offered by the audiovisual media service providers in Macedonia.

The Programme was created as part of the Project for “Enhancing the Administrative Capacities of Telecom and Media Authorities for Efficient Regulation of New Digital and Multiple Play Services”, funded by the European Commission, within the IPA frameworks.

The Programme and the received opinions and commentaries concerning the Draft Programme for Ensuring Media Access for Persons with Disabilities and the Agency’s stance can be downloaded at the following links:
