

Analysis of the structure of employees in the audio and audiovisual media sector in 2014

Skopje, 20.10.2015 – The Agency for Audio and Audiovisual Media Services prepared an Analysis of the Structure of Employees in the Audio and Audiovisual Media Sector in 2014, which contains data about the total number of employees in the public broadcasting service and the commercial television and radio stations at the state, regional and local levels.

These data have been analyzed in terms of the employees' status (regular employment or part-time engagement), their gender and the level of education of the employees in each segment of the television and radio market.

The Analysis of the Structure of Employee in the Audio and Audiovisual Media Sector in 2014 can be downloaded from the following link:
