

Agency prepares Concept for the Development of Non-Profit Broadcasting Institutions

Skopje, 12.12.2015 – The Council of the Agency for Audio and Audiovisual Media Services adopted, at its 39th session held on 11.12.2015, the prepared Concept for the Development of Non-Profit Broadcasting Institutions (No. 01-7043/1, dated 16.12.2015).

This document incorporates the ideas of the Agency for Audio and Audiovisual Media Services, the findings presented in the document titled “Non-Profit Media – Media of the Community” (on which there was a public debate), and the proposals of the Media Development Center. Its aim is dual: on one hand, to communicate the information about the existence of a third broadcasting sector more widely, while encouraging the institutions and bodies in the state to design and envision measures to help its development, on the other.

The Concept for the Development of Non-Profit Broadcasting Institutions and the opinions and commentaries obtained through the public debate related to the preparation of the Concept for the Development of Non-Profit Broadcasting Institutions, as well as the Agency’s stance, can be downloaded at the following links:

Concept for the Development of Non-Profit Broadcasting Institutions
