

# THERE SHOULD BE NO PRESSURE ON THE MEDIA

Skopje, 27.05.2016 – The Agency for Audio and Audiovisual Media Services condemns yesterday's repeated colouring of the façade of Sitel TV's premises.

The right to protest and freely express one's opinions and standpoints is a constitutional right and one of the accomplishments of civilization, however, it should be done in a peaceful and democratic manner, without exerting any pressure whatsoever.

For that reason, we wish to appeal once again not to hinder the work of the media or media professionals.
