

Regular and Control Administrative Supervision over Seven Broadcasters

Skopje, 18 September 2018 – The Agency conducted regular administrative supervision over Radio Antena 5, Radio Kanal 77 and Radio Metropolis, concerning their fulfillment of the legal provisions requiring to publish an Impressum, information that should be made available to the users, and the broadcaster's identification. The supervision showed that Radio Antena 5 and Radio Metropolis have failed to publish Impressum data in some of the programmes they had aired, although they are obligated to air them at an appropriate slot in each of the contents of their programming services.

During the control supervision over Nasha TV, more precisely, the show "Dobra Ideja" (A Good Idea), aired on 7 August 2018, it was established that the Impressum data had not been aired, despite the previously imposed warning measure. A control administrative supervision was conducted over TOPESTRADA TV, M TV and USKANA EDEN TV regarding their obligation to publish information that should be made available to the users. Only TV Uskana Eden had failed to act upon the previously imposed warning measure, i.e. had not provided the said information in its programme aired on 4 September 2018.

The respective supervision reports are available at the links given below:

Radio Antena 5 – (Article 14 of the Media Law; Article 51, Para 1, and Article 97 of LAAVMS) – 17.09.2018
