

AAAVMS To Donate Additional Aid to VIS TV

Skopje, 29 March 2020 – The Agency for Audio and Audiovisual Media Services will donate funds to Channel VIS TV Strumica in order to help this television station repair the damages caused by the fire that broke out in its premises on 25 March and caught its TV studio and technical equipment

The aid involved allocating extra funds in addition to those granted to all broadcasters on 25 March, including to Channel VIS TV. The Donating Decision will be adopted by the Agency at a meeting scheduled on 2 April 2020.

We hope that the television station will soon be able to overcome this situation and that it will continue to be part of media pluralism at the regional level, i.e. that it will continue broadcasting programmes and content relevant to the D4 Region, which covers a number of populated areas.
