

PRESS RELEASE

Skopje, 4 August 2022 – The Agency for Audio and Audiovisual Media Services condemns the obstruction of Alfa TV reporting crew's covering of the celebration marking the Ilinden Uprising Day at Mechkin Kamen in Krushevo on 2 August 2022.

We wish to remind that it particularly important to provide equal conditions and access for all media without any exceptions, so that they are able to report on events of public interest. Media workers must at no point be hindered in the performance of their tasks, especially when it comes to informing the public about important social events and developments.
